

STORAGE & HANDLING SOLUTIONS for COMMERCIAL & INDUSTRIAL

With 29 years of storage expertise, the Storage Design Ltd team is proud of the business - partner relationship we build and maintain with our customers. We work hard to ensure you can be confident of a large range of high quality, innovative products, with excellent customer service at competitive prices.

Our services

- An attractive pricing structure to ensure your prices are always competitive
- Guaranteed quality products from stock for immediate delivery nationwide
- Quotations prepared within 24 hours
- Free in-house design and planning service
- Free on site survey assistance on major projects
- Low cost installation service using SDL trained and employed staff
- Credit facilities, subject to status
- Marketing support
- A family owned and run business that cares about your customers.

ECLIPSE CHROME ACCESSORIES

ECLIPSE CHROME WIRE SPECIAL SHELVES AND ACCESSORIES

Eclipse chrome wire units can be adapted and modified to suit your needs as required. Special shelves such as sloping (27 degree and 45 degree), basket, lipped and reel shelves, as well as accessories such as garment rails, shelf dividers and utility rails can be added onto units or can replace existing shelves to make your shelving more versatile.

Please see the following pages and explore the different accessories that can be added to the Eclipse Chrome units.

ECLIPSE CHROME ACCESSORIES

GARMENT RAILS UNITS

SHORT CART HANDLES

- Choice of 460 or 610mm widths

LONG CART HANDLES

- Choice of 460 or 610mm widths

ESD SAFE SHELving

ESD SAFE SHELving

ESD SAFE SHELIVING

ESD SAFE CHROME WIRE SHELIVING

Our ESD safe chrome wire shelving is available in the full range of sizes and accessories including trolleys.

If storing electrical devices on metal shelving or trolleys, then it is important to ensure it is ESD (Electro Static Discharge) safe. Intense heat from ESD can melt or vaporize the small parts in the device, causing it to stop working or shorten it's life.

To make our Eclipse Chrome wire shelving or trolley ESD safe, all that is needed are conductive collars with metal base plates, conductive feet or anti-static castors.

ECLIPSE PERMA PLUS

EPOXY COATED WIRE SHELVING WITH
AN ANTIBACTERIAL EDGE

ECLIPSE PERMA PLUS

ECLIPSE PERMA PLUS EPOXY COATED SHELIVING

10 YEAR ANTIBACTERIAL & ANTI-CORROSION GUARANTEE

120mm sizes.
Unbraked and braked options.

HIGH DENSITY STORAGE

MORE STORAGE IN LESS SPACE

HIGH DENSITY STORAGE

HIGH DENSITY STORAGE

Why High Density Storage?

High density storage is a grand name for a very simple idea - get more storage into the same space by removing all but one access aisle. By using mobile units between static ends, the aisle becomes moveable; so the unnecessary aisle in the static system now become additional units in the high density system.

SDL offer 2 types of High Density systems to maximise your surface area storage:

FLOOR TRACK HD

- Mobile shelving unit slides easily along aluminium floor tracks on Grade 304 stainless steel blocks
- Use on all Eclipse range shelving & Eko Fit
- Use in dry store, cold rooms and freezers
- Lower cost than other HD options
- Retro-fit to existing SDL shelving
- One piece stainless steel rolling block allows for smooth action with minimal drift Up to 400kg loading per mobile unit

TRACKLESS OVERHEAD HD

- Mobile units mounted on Grade 304 stainless steel blocks glide easily on standard smooth flooring
- Kept in line with overhead aluminium guide rails and top mounted stainless steel shuttles
- No floor track, so easy to keep clean
- Use on all Eclipse range shelving & Eko Fit
- Up to 1800mm unit length and spans up to 4 metres
- Retro-fit to existing SDL shelving
- One piece stainless steel rolling block allows for smooth action with minimal drift
- Up to 400kg loading per mobile unit

Includes free site survey and end-to-end planning from concept to installation

SMALL-PART STORAGE

IDEAL FOR STORAGE OF LOOSE ITEMS

SMALL-PART STORAGE

SMALL-PART STORAGE

- SDL's small-part storage units are ideal for storing loose items such as nuts, bolts and tools.
- Units (1980mm high) are available in epoxy coated steel or stainless steel and can be supplied as single, one column units. They can be made bigger with the use of add-on units.
- Trays slide into runners that easily attach to the frame without the use of tools.
- The unique design of the trays means that dividers can be fitted inside to customise the size of the compartments.
- The trays are available in depths of 50mm, 100mm or 200mm and either clear or grey ABS plastic.

TROLLEYS

TROLLEYS

GENERAL PURPOSE TROLLEYS

ORDER PICKING TROLLEYS

Order Picking Trolleys

- It is essential to have the right equipment when picking products in a warehouse or similar facility. This is to ensure the safety of employees and efficiency of work-flow.
- Shelfspan's order picking trolleys are specifically designed for loading, transporting and unloading boxes and packages of different shapes, sizes and weights
- Accessories such as the handle, side/back grids and shelf dividers make these trolleys very easy to use, products can be easily organised on each shelf level.
- Swivel castors make the trolleys highly manoeuvrable and the 2 braked castors means they can be secured in place during the loading/unloading process.

ORDER PICKING TROLLEYS

ORDER PICKING TROLLEYS

- 5 tier picking trolley with shelf dividers
- Heavy duty shelf at the bottom
- Mesh panels either end
- Short Handle
