Categories within this Catalogue ►

Pages 4 - 9

Numbers & Letters

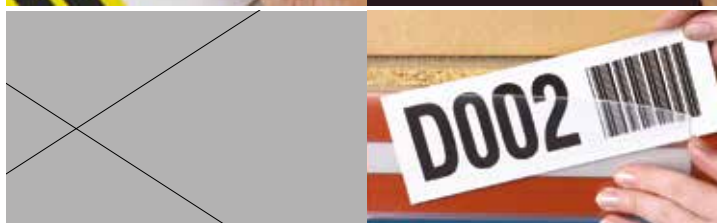

Adhesive and magnetic numbers and letters offer quick and versatile labelling solutions, individual characters or complete packs.

Pages 10 - 39

Aisle & Rack Identification

Warehouse navigation, aisle health and safety, weight load and barcode information for efficient aisle management.

Pages 40 - 41

Tapes & Fixings

A range of fixings to suit all your display mounting needs, quickly and easily helps to make items magnetic or affixed permanently.

Pages 42 - 53

Floor Identification

Strategic, colour coded floor identification to improve the organisation and flow of your workplace in a clear and precise manner.

Pages 54 - 73

Document Control

A range of document display pockets and frames to help promote important messages and information used within 5S and LEAN.

Pages 74 - 77

Warehouse Recycling

In conjunction with legal requirements, our range of rack, trolley and rollcage sacks offer a cost effective recycling solution.

Pages 78 - 81

Tags & Signage

Tagging, inspection and monitoring solutions, name plates and safety signage.

Page 82

Printed Hi-Vis Workwear

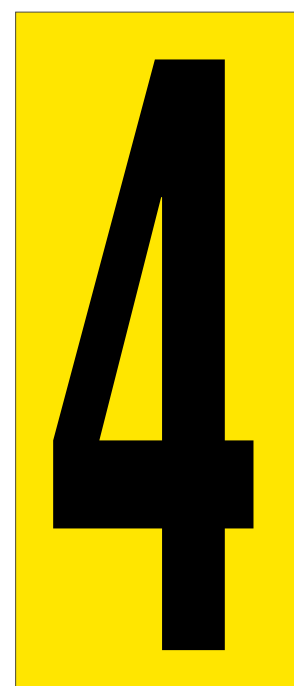

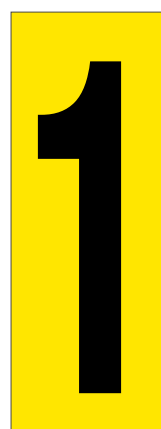

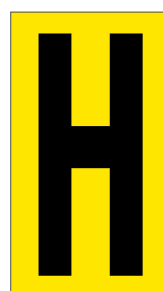

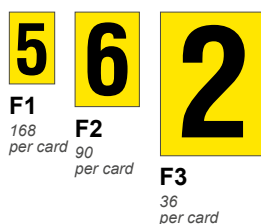

A range of PPE and workwear that can be branded to help promote a company, event or identify staff.

Individual Self-adhesive Numbers & Letters

F1 - F6 sizes available in yellow or white ☐ ☐

- Characters come in 8 sizes
- Clean peel labelling - leaves no residue
- Order only the numbers or letters you need
- Supplied on single cards of identical characters

Eliminate costly errors
caused by bad handwriting

Ideal for bin
numbering

Minimum order of
20 cards.
These can be
mixed sizes,
colours, letters,
numbers & arrows.

Self-adhesive Numbers

These adhesive numbers are printed black on yellow or black on white and offer high visibility.

All these tough vinyl labels are quick & easy to apply but will remove cleanly when necessary.

Numbers - Cards of the same number

Ref	Label Size (mm h x w)	Character Height (mm)	Characters Per Card	Colours
F1 - specify number 0-9	9.5 x 6	6	168	Yellow/White
F2 - specify number 0-9	12.5 x 8.5	9	90	Yellow/White
F3 - specify number 0-9	19 x 14	16	36	Yellow/White
F4 - specify number 0-9	38 x 21	26	12	Yellow/White
F5 - specify number 0-9	56 x 21	50	12	Yellow/White
F6 - specify number 0-9	90 x 38	75	6	Yellow/White
F7 - specify number 0-9	130 x 45	100	5	Yellow
F8 - specify number 0-9	230 x 140	160	1	Yellow

Self-adhesive Letters

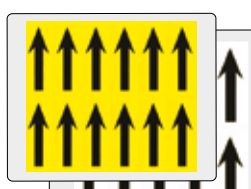

Combine these individual letter labels with numbers to make a quick yet highly effective labelling system. Ideal for shelf identification, archive boxes and the larger letters are perfect for making your own bespoke text only signs.

Letters - Cards of the same letter

Ref	Label Size (mm h x w)	Character Height (mm)	Characters Per Card	Colours
F1 - specify letter A-Z	9.5 x 6	6	168	Yellow/White
F2 - specify letter A-Z	12.5 x 8.5	9	90	Yellow/White
F3 - specify letter A-Z	19 x 14	16	36	Yellow/White
F4 - specify letter A-Z	38 x 21	26	12	Yellow/White
F5 - specify letter A-Z	56 x 21	50	12	Yellow/White
F6 - specify letter A-Z	90 x 38	75	6	Yellow/White
F7 - specify letter A-Z	130 x 45	100	5	Yellow
F8 - specify letter A-Z	230 x 140	160	1	Yellow

Arrows

A range of directional arrows, ideal for use on beams and shelves confirming stock location is above or below the beam – helps to eliminate picking errors.

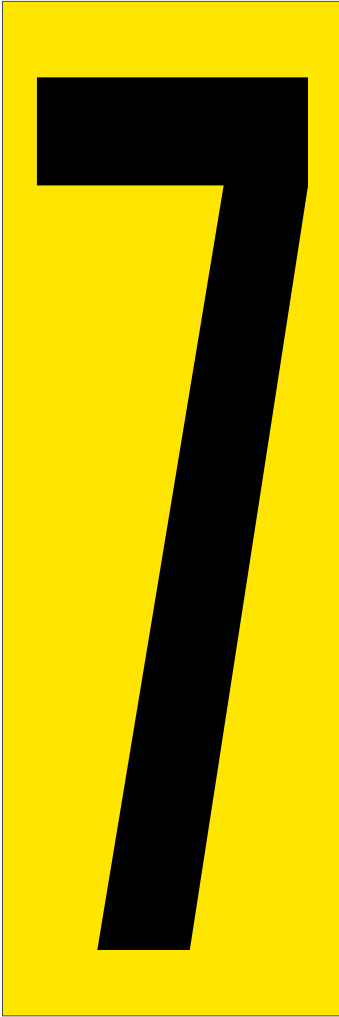

Ref	Label Size (mm h x w)	Character Height (mm)	Characters Per Card	Colours
F3 Arrows	19 x 14	16	36	Yellow/White
F4 Arrows	38 x 21	26	12	Yellow/White
F5 Arrows	56 x 21	50	12	Yellow/White
F6 Arrows	90 x 38	75	6	Yellow/White

Self-adhesive

F7 5 per card

Ordering

Simply select the size you require taking into account the tile size, colour choice and confirm the quantity of each card required.

For example F4, each individual label is 38x21mm with a character height of 26mm and 1 card will have 12 of the same character on each card.

Supplied on cards of identical numbers or letters

F8 1 per card

Samples shown here are actual size

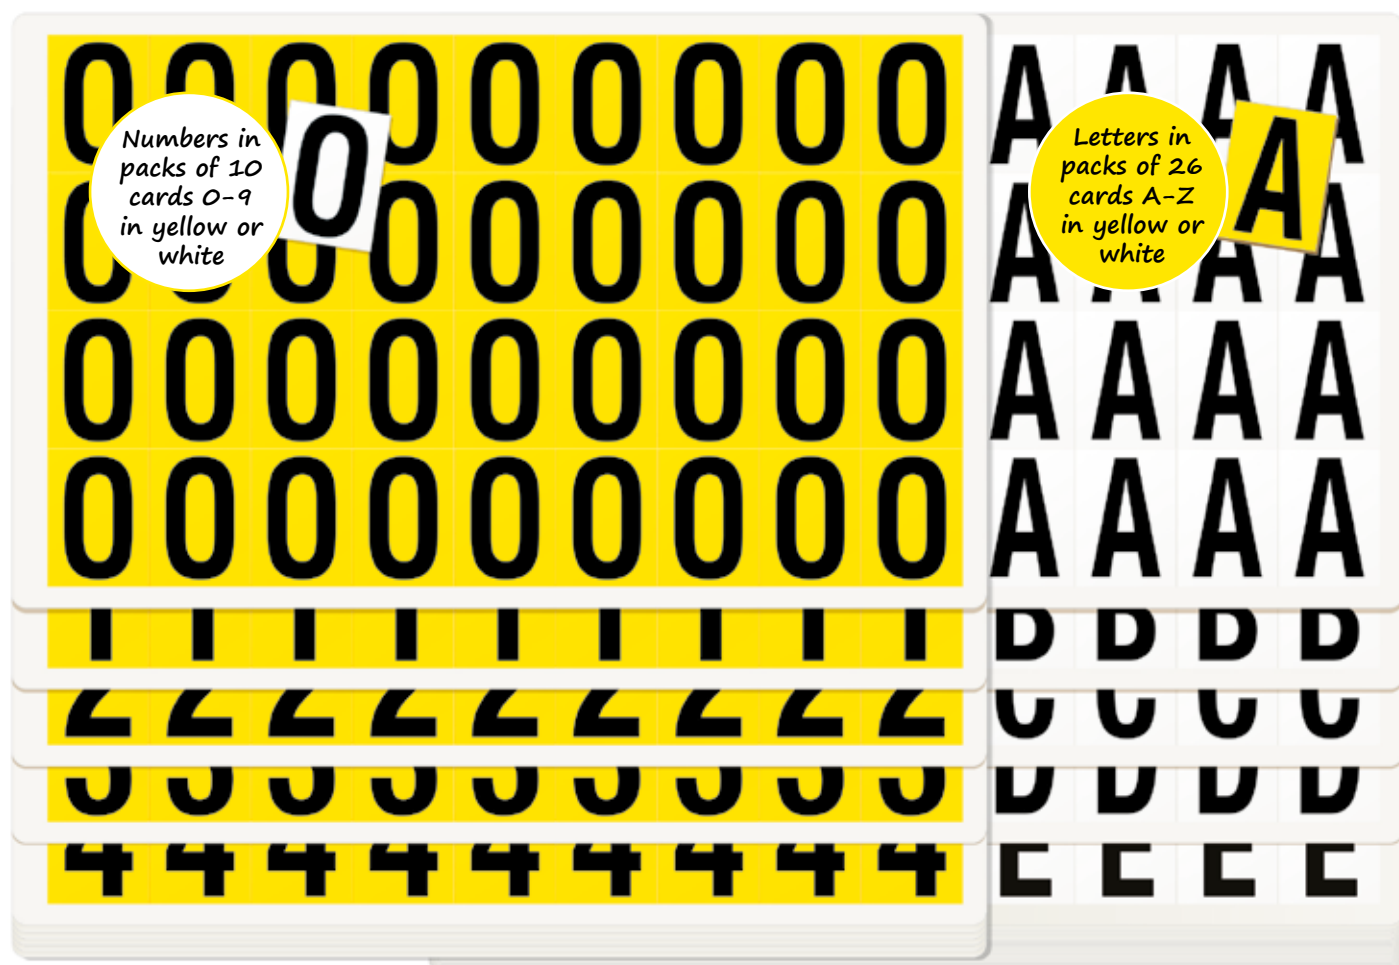

F8 characters:
for high visibility

See page 2 for details

Complete Packs of Self-adhesive Numbers & Letters

F3 Samples shown here are actual size

Complete Packs of Self-adhesive Numbers

For convenience, order these complete packs of numbers, each pack contains 10 cards, 1 of each number. The number of characters per card depends on the size that you select.

Yellow is supplied as standard if no colour is specified.

Numbers - Cards of 0-9

Ref	Label Size (mm h x w)	Character Height (mm)	Characters Per Card	Colours
F1 - Pack 0-9	9.5 x 6	6	168	Yellow/White
F2 - Pack 0-9	12.5 x 8.5	9	90	Yellow/White
F3 - Pack 0-9	19 x 14	16	36	Yellow/White
F4 - Pack 0-9	38 x 21	26	12	Yellow/White
F5 - Pack 0-9	56 x 21	50	12	Yellow/White
F6 - Pack 0-9	90 x 38	75	6	Yellow/White
F7 - Pack 0-9	130 x 45	100	5	Yellow
F8 - Pack 0-9	230 x 140	160	1	Yellow

Complete Packs of Self-adhesive Letters

For convenience, order these complete packs of letters and have spares at hand to immediately respond to your identification needs. Each pack contains 26 cards, 1 of each letter. The number of letters per card depends on the size that you select.

Letters - Cards of A-Z

Ref	Label Size (mm h x w)	Character Height (mm)	Characters Per Card	Colours
F1 - Pack A-Z	9.5 x 6	6	168	Yellow/White
F2 - Pack A-Z	12.5 x 8.5	9	90	Yellow/White
F3 - Pack A-Z	19 x 14	16	36	Yellow/White
F4 - Pack A-Z	38 x 21	26	12	Yellow/White
F5 - Pack A-Z	56 x 21	50	12	Yellow/White
F6 - Pack A-Z	90 x 38	75	6	Yellow/White
F7 - Pack A-Z	130 x 45	100	5	Yellow
F8 - Pack A-Z	230 x 140	160	1	Yellow

Self-adhesive

- Choice of 8 different sizes
- 1 card of each character
- Supplied in complete handy packs of numbers 0-9 or characters A-Z
- Clean peel labelling - leaves no residue
- Cost effective method of creating bespoke identification
- Easy warehouse identification

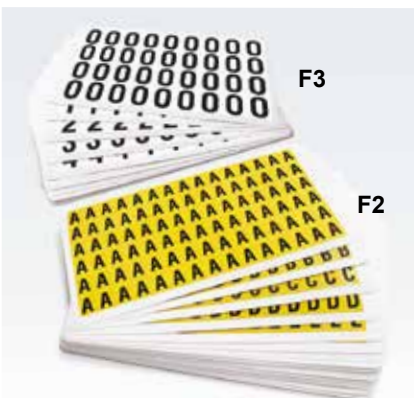

Eliminate costly errors caused by bad handwriting

Ordering

Simply select the size you require taking into account the tile size, confirm colour choice and the quantity of packs.

For example F3, each individual label is 19x14mm with a character height of 16mm. 36 characters per card. So 1 pack of F3 0-9 will contain 36 of each number.

Packs of identical cards of characters

Each pack contains characters of the same size

Characters come in 8 sizes.

F1 - F6 sizes available in yellow or white

See page 2 for details

Self-adhesive Label Holders

Self-adhesive

- Instant & highly visible identification
- Long term for stable environments
- Standard sizes supplied from stock
- Ideal for pigeon holes

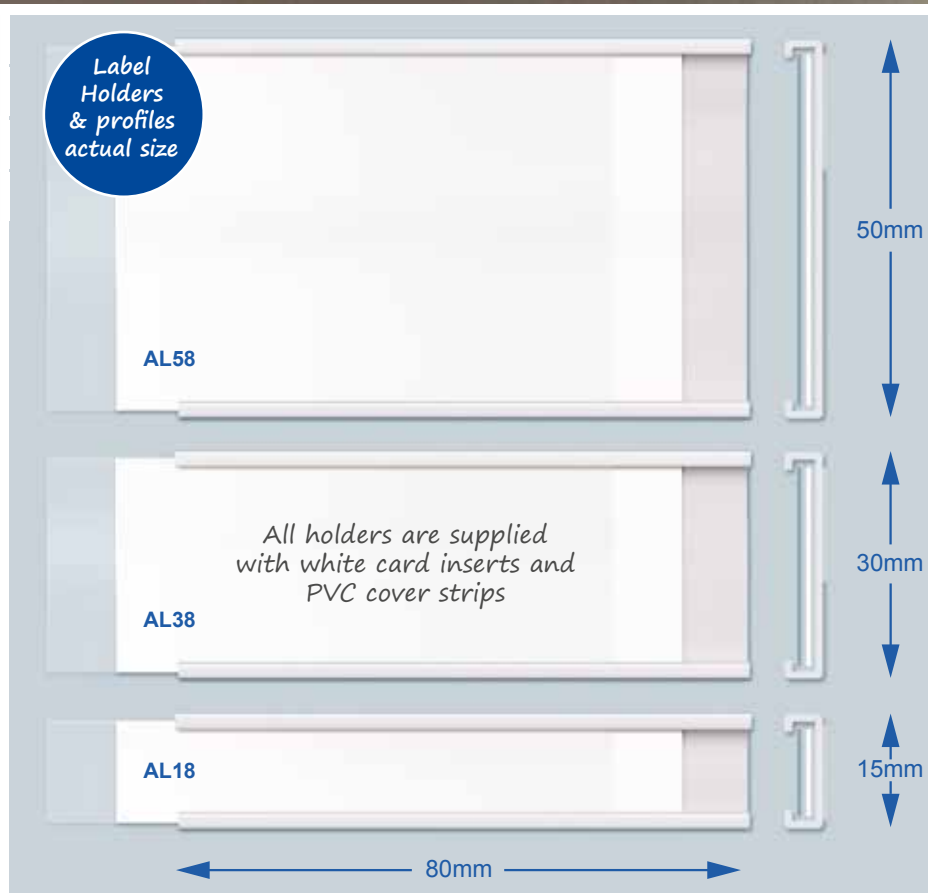

Self-adhesive offers a long term option of fixing label holders and more stability in environments where the inserts need to be changed frequently.

The smaller holders are an ideal solution for the identification of pigeon holes and also suit narrow edge shelving used in schools, libraries and offices.

Magnetic Label Holders - Rolls

Magnetic

Economical & versatile

Aisle & Rack Identification

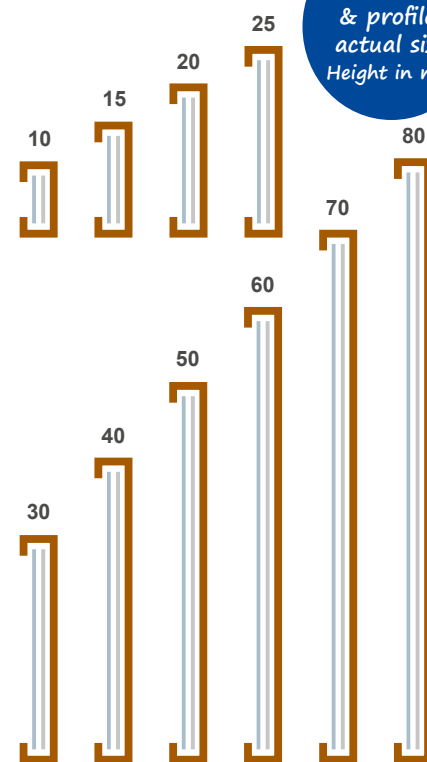

- Ideal for cutting to your exact size
- 5, 10 & 50m rolls
- Flexible to meet your changing needs
- All supplied with white card inserts & pvc cover strips
- Ideal for cold stores

These economical rolls of magnetic label holders are available in 10 widths and lengths of 5, 10 or 50 metres. Each roll is supplied complete with a white card insert and a clear pvc cover strip. This flexible material enables the user to easily cut pieces into the length they require, using a knife or scissors.

● For bespoke requirements please contact our sales office.

Magnetic Easy Wipe Racking Strip - White

Wipe Clean

Magnetic

- Gloss white surface
- Write on – wipe off using a wet wipe marker pen
- Cost effective labelling system

The magnetic easy-wipe racking strip allows the user to quickly create labels and identification that are completely reusable and movable. Traditional adhesive labels, whilst offering permanent identification cannot be relocated or updated, unlike this magnetic tape.

All rolls are supplied in 10m lengths. Simply cut to the desired length, write on with a wet wipe marker pen and if required remove text with a damp cloth. Using a wet wipe pen reduces the chances of the information being accidentally wiped off.

See page 2 for details

Magnetic Easy Wipe Racking Strip - Colours

Wipe Clean

Magnetic

Aisle & Rack Identification

- Gloss coloured surface except matt black
- Ideal for use as colour coding
- Write on – wipe off using a wet wipe marker pen
- Ideal for 5S and Lean environments

Instant coloured magnetic labelling. The coloured version of easy-wipe racking strip allows the user to create colour coded areas or enforce a particular message. This magnetic strip offers other uses, with the narrow versions capable of being used as gridding tape on steel notice boards, with the wider rolls offering the ability to cut out or punch out different shapes.

All rolls are supplied in 10m lengths, simply cut to the desired length, write on with a wet wipe marker pen and if required remove text with a damp cloth.

Wet Wipe Marker Pens

Our black Marker Pen is unlike most marker pens due to its unique Wet Wipe quality. Most pens of this type are either permanent or wipe off, whereas the Beaverswood pen's ink, once dried, needs a damp cloth for it to be removed.

Wire Shelving Clip Holder

- Easily identify locations on wire shelving
- Pull forward front for loading & updating
- Scan barcodes without removing insert
- Multi-position, flat or choice of angled settings
- Holder can be reversed so higher levels are easier to read

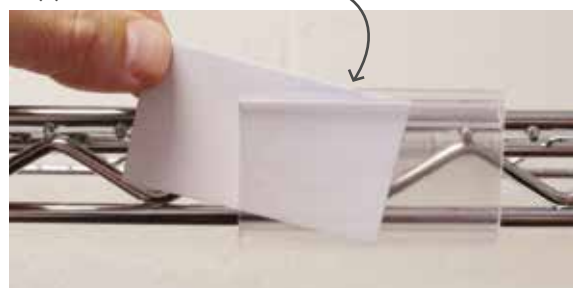

Identifying locations on wire mesh shelving is difficult as traditional magnetic or self-adhesive holders do not suit wire mesh shelving. This holder solves the problem by using a quick and easy to use "clip-on" system. This versatile holder can be used in three different formats straight for shelves that are eye level, approx 33° for lower shelves and approx 45° for the very bottom shelf enabling easy reading. The holder is reversed for high level viewing.

Supplied with white card

Ref	Size (mm h x w)	Pack
WSC47/12	43 x 75	12
WSC47/50	43 x 75	50

- Each holder is 43mm high x 75mm wide overall, supplied in packs of 12 or 50 with white card inserts.
- Suits wire shelves with maximum height of 35mm.

Ticket Pouches - Self-adhesive

Self-adhesive

- Cost effective ticket pouches
- Clear front enables barcodes to be scanned
- 5 colour options available
- Supplied with white card inserts
- Ideal for 5S & lean manufacturing systems

Target information using this economical range of coloured p.v.c. ticket pouches. They have a flexible pull forward clear front and coloured back. There are 4 size options and 5 colours and are designed for use on all types of shelving and racking. The coloured backing can be used for identifying picking areas, whilst the clear front allows for a barcode insert to be scanned without removing the ticket. The self-adhesive pouch is permanent, whereas the magnetic version can be easily relocated.

Self-adhesive fixing

Both Self-adhesive & Magnetic Ticket Pouches come in 4 sizes & 5 colours:

Pallet Topper®

- Helps to reduce damage by preventing double stacking
- Can be used with either strapping or shrink wrap

Transporting palletised loads from one destination to another by road haulier can be a hazardous business. With this in mind Pallet Topper®, a pyramid shaped warning sign is designed to sit on top of a pallet, highlighting the fact that other pallets must not be stacked on top.

The clever design of Pallet Topper® enables it to be firmly secured to the pallet strapping either during or after it has been strapped. Where a pallet is covered in clear stretch wrap, Pallet Topper® can happily be wrapped inside the film, but still remains highly visible.

Secures onto the pallet strapping to prevent stacking

- Quantity price breaks available.
- Supplied in packs of 100 pieces.

Pipe Label Holder

- 38mm height ticket holder for label inserts up to 35mm high
- Fits securely to pipes or to tubular racking
- Barcodes can be scanned without removing the insert
- 200mm wide ideal for most types of identification labels

For clear and easily applied labelling on pipes or tubular racking, these robust panels with twin clips provide an identification solution where traditional labelling is difficult to attach. The holders can be used vertically as well as horizontally and are available in packs of 10 and 50.

Ref	Description	Pack

- Each holder is 200mm wide and accepts up to 35mm high labels.

Supplied with plain white card inserts

Pallet Marker

- Enables quick & easy identification of pallets
- Water, grease & oil resistant
- Adjustable fit

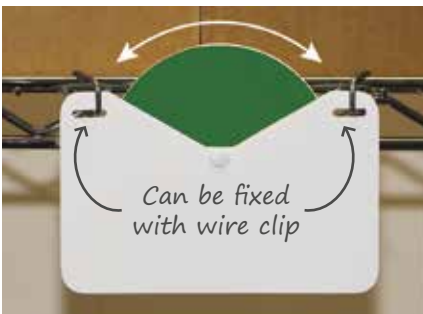

Identifying stock on pallets has always been a problem. Our Pallet Marker is designed to fit securely around the corner of a Euro pallet, yet is adjustable to fit most other pallets. Manufactured in flexible white PVC, this unique Pallet Marker can be written on with a marker pen, or labels can be adhered to the smooth surface.

Stock Indicator Wheel

- Clear 3 colour coding system to show stock availability
- Ideal visual aid when stock is not visible
- Plate dimensions: 90mm high (110mm overall) x 140mm wide

Our "traffic light" wheel can simply be rotated to show the level of stock that is available. Green for good, amber for getting low and red for out of stock. The indicator wheel is available with self-adhesive, magnetic or wire clip fixings for attaching to wooden pallets and stillage's up to 25mm thick. For extra stability the self-adhesive option also allows for the holder to be screwed to the fixing surface.

Projection Markers

- Larger angled markers for enhanced visibility
- Manufactured to order in various sizes to suit your requirements
- Available in styrene or foamex

Our larger angled aisle markers are manufactured in various sizes and materials to suit your requirements. Generally manufactured in 1.5mm yellow or white styrene or 3mm foamex and printed on two faces for multi angled enhanced visibility with digits or just about any other information of your choice. The markers can be supplied either pre-drilled or with self-adhesive fixing tape for ease of application.

Printed on two faces for multi angled enhanced visibility

● Please contact us for further details on this bespoke product.

Aisle & Bay I.D. Markers

Quickly and easily get to the right aisle

- Markers to identify aisles or bays
- Supplied pre-drilled unless stated
- Prominent identification
- Prices include printing of required characters up to the maximum allowed

Our range of robust end of aisle identification markers are available in various sizes and designs for instant product and aisle locating. Suitable for use in factory, warehouse or office environments.

Bespoke markers can be manufactured incorporating directional arrows, logos, and entry/no entry symbols etc.

Contact our sales office for further details.

- Larger styrene markers up to 600 x 600mm are available to order. Other materials and sizes are also available - Please enquire for details.

Shelving Aisle Marker

- High visibility marker for shelving
- Price includes printing of up to 3 characters

This aisle marker is the ideal, highly visible and economical solution for shelving aisle and bay identification. The marker is supplied pre-drilled in 4 corners for cable tie or screw fixing. Alternatively our Magnetic Self-adhesive Strip can be applied to the rear of the marker for quick and easy fixing.

Ref	Size (mm h x w)	Characters	Colour
AM1	95 x 160	Up to 3 characters on one side	White/Yellow

- Please specify sequencing & colour option when ordering.

Magnetic & Self-adhesive Bay Markers - Single Characters

- Clear Identification
- Fixed or relocated in seconds
- No drilling required
- Magnetic or Self-adhesive fixing options

Our high visibility Bay Markers offer clear identification throughout the warehouse. A formed aluminium section with either a magnetic or self-adhesive edge, enables the marker to be easily mounted onto steel racking without drilling. When locations need to be changed the magnetic marker can simply be lifted and relocated. Please note adhesive characters are supplied separately and can be applied to both front and back.

Systematic approach to identifying the right location

Modern warehouses need clear and precise identification that can be easily understood. We are the specialists in the design and manufacture of labels that will meet your requirements. We print adhesive labels, magnetic labels, barcode labels, multi-colour labels, upright labels, split beam labels, summary labels and a lot more. Our consultation service will guide you through the process and tailor the labels to your specific needs.

How do I label a warehouse? - where do I start? A question we hear often and one we will try to offer some guidance on below:

Keep it simple - if you are new to the concept of identification, consider using an alpha numeric location code combination. Label the runs of racking with a single or double alpha, then the bays with a double numeric and back to the height with an alpha. This system breaks the code down for the picker. Human readable codes can be further simplified with the use of hyphens.

Consider the use of barcodes - they may not be required currently, but can be a cost saving for a later date. Generally there are 2 common barcodes used within the warehouse environment with the majority of scanners working with both. With barcoding, consider if you have the use of man up trucks? If not, then a summary label on the first beam or an upright marker on the racking leg, offers the facility for the upper level barcodes to be scanned from the ground.

A variety of base materials are available:

- Paper based
- Vinyls
- Polyesters
- Magnetic - coldstores
- Block out

Our Project Managers will design a labelling solution to meet your particular requirements.

If you already know what you need then contact us for a quotation with the following information:

- Number of locations
- Typical code
- Colour requirement
- Approximate label size
- Base material
- Height to top beam - For install purposes

Location Labelling - Full Colour Laminated Labels

Magnetic

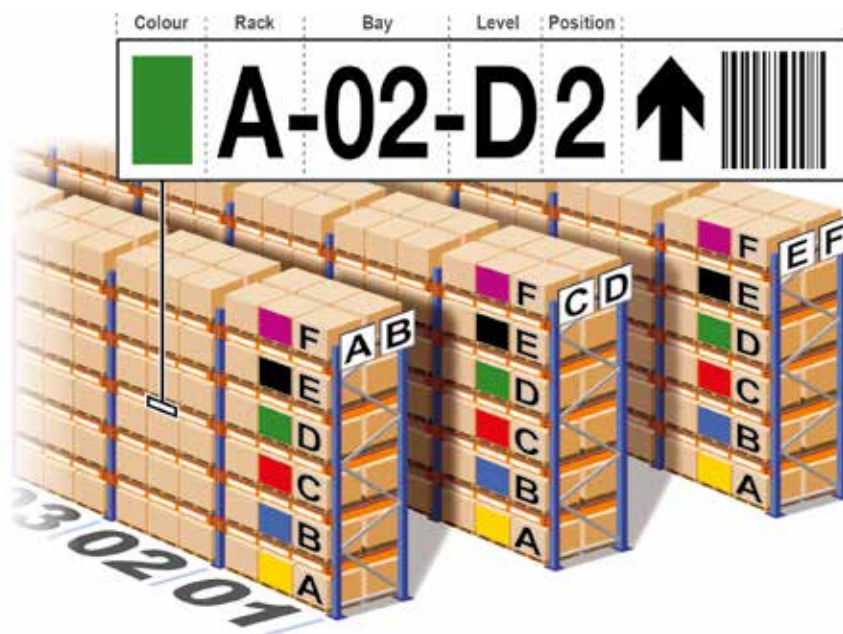

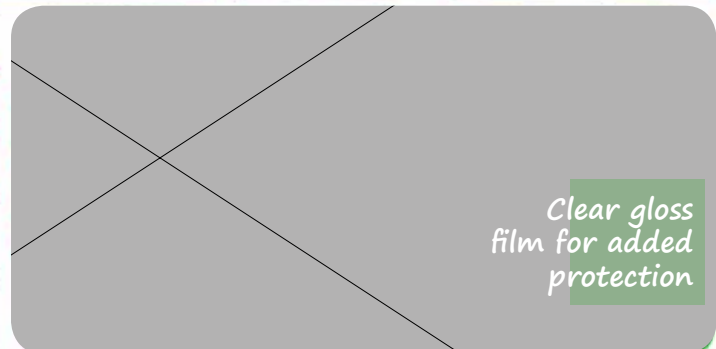

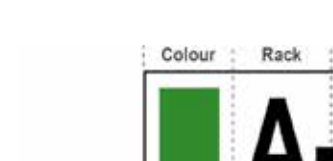

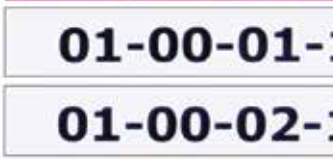

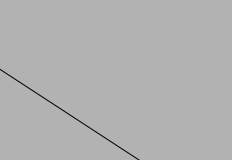

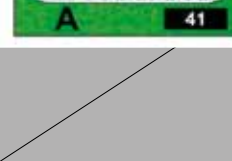

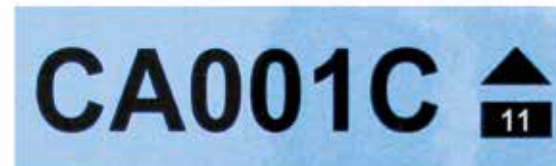

Self-adhesive

Clear gloss film for added print protection ideal for applications where durable, UV resistant Labels are required

- Enhances material quality look & feel
- Dirt, grease & smudges can be cleaned off
- Deepens & brightens colours
- Protects from spills & abrasion

Our Project Managers are on hand to guide you through the process of designing a labelling solution to meet your particular system requirements. If you already know what you need – then contact us for a quotation with an indication of the following details:

- Quantity of labels &/or number of locations
- Typical code
- Colour requirement
- Approximate label size
- Base material
- Height to top beam - For install purposes

If you have a racking drawing or plan, please forward this to enable a quotation to be supplied.

Laminated Labels - Designs

Brief description of typical labels used, other designs, formats are available please enquire for details:

Standard Format - Location Labels

A location label for each pallet location, can incorporate location code, directional arrow, barcode and check digits (if required). Clear, precise identification for each and every pallet. It is often worth including barcodes on all locations, even if you do not have man up trucks for stock taking purposes.

Split Beam Labels

Ideal for locations on the floor and first beam level. The double text at eye level reduces the number of labels required for manufacture and installation. Labels can incorporate locations, directional arrows, barcodes and check digits.

Summary Labels

Labels positioned on the first beam level detailing the locations and barcodes for all upper levels. Suitable for use where man up trucks are not available, the user can scan the required location from the ground, without the need to leave the truck.

Upright Labels

Manufactured on a rigid plate, the upright markers are ideal for use in walkways, fire exits or tunnel bays. The plates act like the summary labels and offer the user the facility to scan upper level locations from the ground.

Wipe Clean

Magnetic & Self-adhesive Information Labels

Magnetic

Self-adhesive

Promote a safe warehouse environment

MAX UDL 2000 KGS

- Highly visible information labels
- Price includes printing to your design
- Black text on white or yellow background
- Choice of 4 standard sizes
- Magnetic or Self-adhesive

Our highly visible labels were originally designed to highlight Max UDL or SWL on shelving and pallet racking beams, but these labels can be used virtually anywhere and on most surfaces.

Simply select the size you require, confirm the text, pictograms, colour and quantity required. Four standard sizes are offered however other sizes are available.

* Print may appear on two lines.

Please note there is a minimum order value of £25.

Racking Self Assessment Chart

900 x 690mm (mm h x w)

- Do you have systems in place to check the safety of your racking?
- Helps you perform structured checks
- Dry-wipe over laminated surface

The non-adhesive backed Racking Self Assessment chart can be mounted to various substrates with a method of your choice. The chart enables regular, structured inspection checks of your racking. It is clearly evident for all to see when the last check was done and helps to highlight any issues.

Assessment Guide

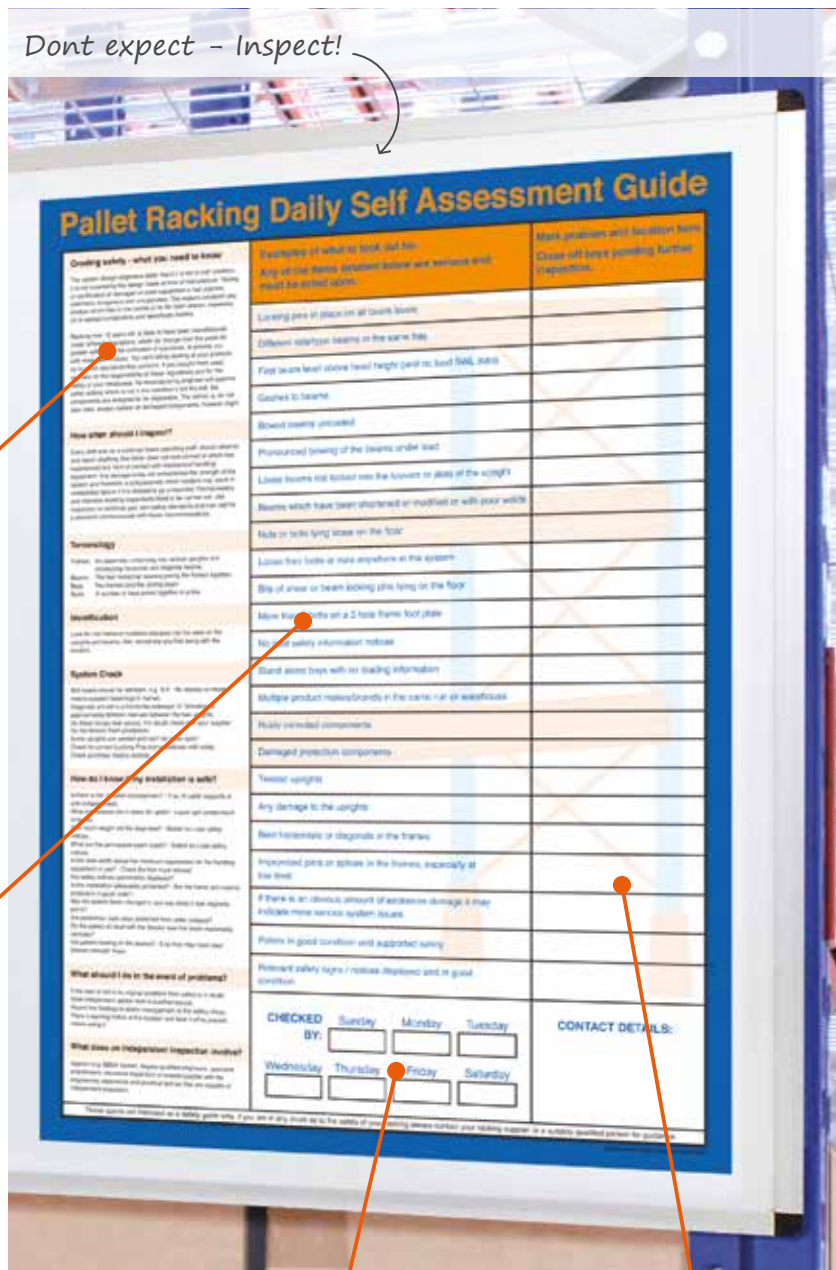

Check list for potential issues & regulations to adhere to

As an employer it is vital you have a system in place that can be performed in a structured way and to know your responsibilities. The rise of buying used racking also means that as an employer you take on the responsibilities of these regulations and for all your employee safety.

These low cost charts help to put into place, a simple to follow, check system.

Weight Load Identification - PVC Notices

- Signs to identify weight loadings & procedures
- Choice of 6 different designs
- Supplied blank from stock
- Price also includes black printing with contact details & loadings

Five tough and durable PVC weight load notices, detailing the procedures for the maintenance of racking structures. The range covers shelf/pallet racking, cantilever racking, drive-thru racking and mezzanine floors.

All our notices incorporate the latest Health & Safety recommendations. The signs can be overprinted with your corporate logo, address and contact details.

See page 2 for details

BLS1 Shelving & Racking (mm h x w) 356 x 254

- All our weight load notices can be colour printed with your logo, etc. (Subject to minimum quantity). Please call for further details.
- Templates can be emailed to you on request, simply enter your details and forward them with your purchase order.

Magnetic Self-adhesive Strip

Magnetic

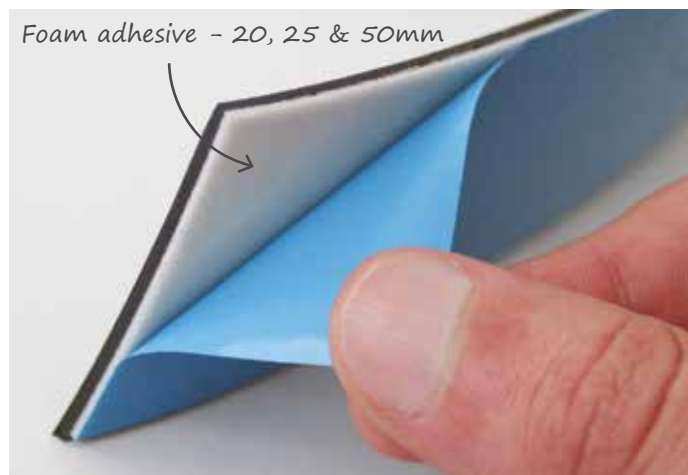

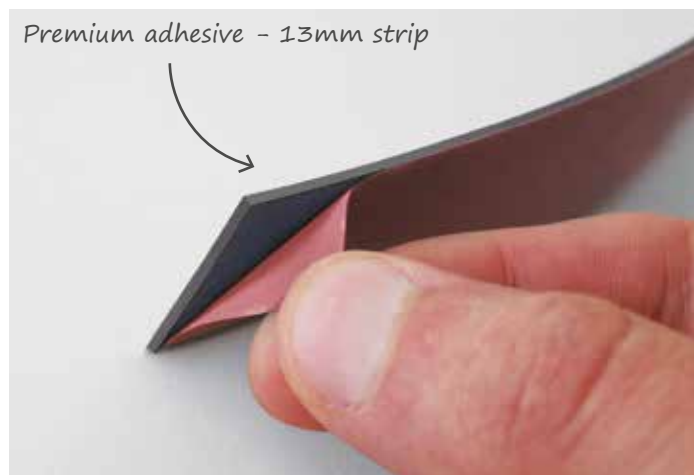

- Locates on any steel surface
- Makes anything magnetic
- No drilling required
- Industrial quality - 1.5mm thickness

Available
in
4 widths
13 - 50mm

Easy to cut to size

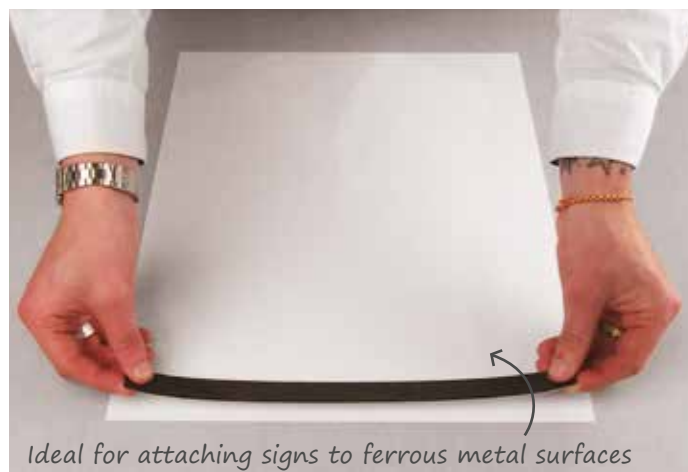

Our Magnetic strip is supplied in four widths, each backed with a strong permanent self-adhesive for mounting items onto steel surfaces. This magnetic strip is ideal for many jobs in the factory or warehouse, eliminating the need for drilling or other methods of fixing.

- Makes anything magnetic!

See page 2 for details

Ref	Size (h x w)	Adhesive
MSSA/13	13mm x 30M	Premium
MSSA/20	20mm x 10M	Foam
MSSA/25	25mm x 10M	Foam
MSSA/50	50mm x 10M	Foam

Self-adhesive

Self-adhesive Steel Tape

- Available in 3 sizes
- Easy to cut to size
- Used for circumstances where steel surfaces are not present

Our self-adhesive steel tape allows non-metallic surfaces to accept magnetic products.

Typical usage would be to adhere steel tape to a sealed wood surface, the strip is now ready to accept magnetic items such as Memo Magnets etc. Notes and documents can then be removed/replaced as many times as required just from one fixing.

Ref	Size (h x w)
ST/12	12mm x 30M
ST/20	20mm x 30M
ST/25	25mm x 30M

Double Sided Self-adhesive Tape

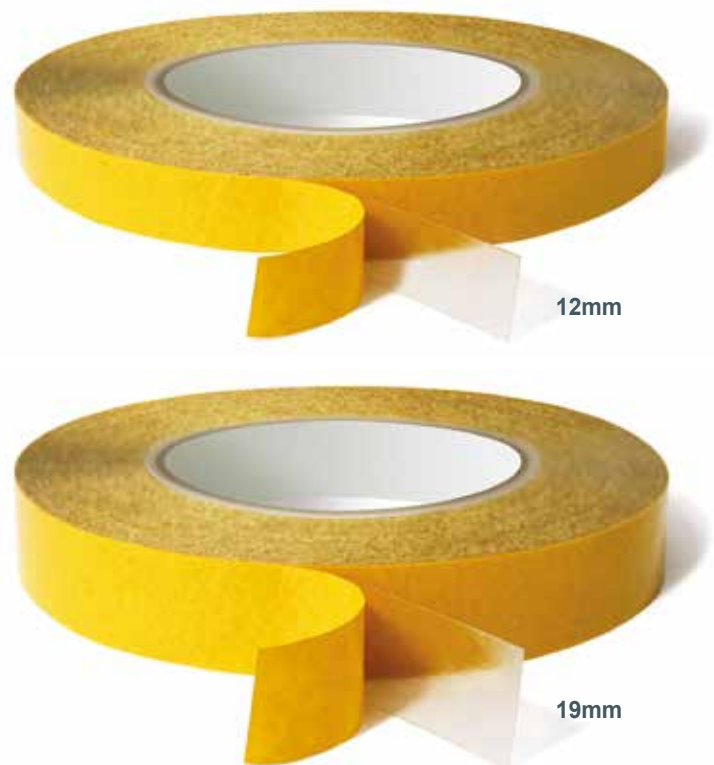

- Multi-purpose fixing tape
- Choice of 2 sizes
- High tack adhesive
- High temperature resistance
- High holding power

Supplied in either 12mm or 19mm wide in 50 metre rolls. This very aggressive acrylic tape is ideal for fixing signs and markers within the workplace.

- Most Beaverswood products are available from stock

Ref	Size (h x w)
DST12	12mm x 50M
DST19	19mm x 50M

Floor Signalling

For walkways, pallet storage, equipment positioning & general floor marking

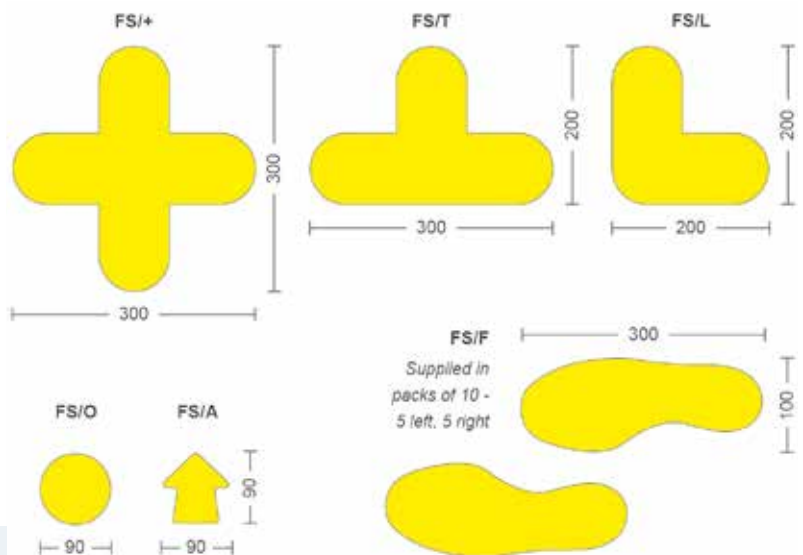

- A simple but effective solution for marking areas on the floor
- Tough PVC with an aggressive adhesive
- Capable of withstanding everyday traffic of a fully operational warehouse
- 6 colours & 6 shape options

Highlight pallet areas, walkways and traffic flow. Manufactured using a thin plastic membrane and laminated with an aggressive adhesive, they bond onto the floor surface and are resistant to the rigours of a busy warehouse.

The markers are suitable for application onto a clean, flat, sealed surface.

Dimensions in mm:

Available in Lean Manufacturing colours:

Floor Identification

+ For centre pallet positions
Supplied in packs of 10 or 50

T For between pallets
Supplied in packs of 10 or 50

L Corner for marking out block stack pallet areas
Supplied in packs of 10 or 50

● For walkways
Supplied in packs of 100

↑ To indicate direction of traffic flow or position
Supplied in packs of 100

● To indicate walkways or traffic flow
Supplied in packs of 10 (5 left, 5 right) or 50 (25 left, 25 right)

The use of different shapes and colours help to designate different areas within the work space. Clear delineation helps product flow, everything should be in its place at the right time helping to create safer work environments. Ideal for use in 5S and Lean manufacturing areas.

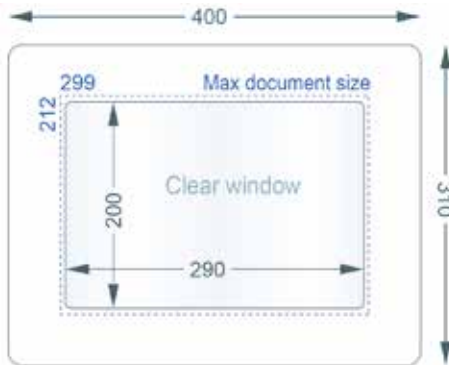

- Tough, flat, colour coded floor identification frames
- Available in 2 insert sizes: A4 and DL
- Choice of 6 stand out colours
- Permanent industrial strength adhesive to withstand warehouse traffic
- Ideal for identifying bulk stack locations or to highlight important information

Frames4floors are tough permanent adhesive colour edged PVC frames that enable a printed message or code to be placed and protected onto the floor. Manufactured using a thin plastic membrane, the frames bond onto the floor surface and are therefore resistant to the rigours of a busy warehouse.

The frames are available with two window sizes, either A4 up to 200x290mm or DL up to 89x199mm. Frames are available with six colour options, making them ideal for 5S and lean environments.

To fit an A4 size message:

Floor Graphic Markers - With text

- High visibility graphic floor signs with text
- Safety signs for the floor or wall
- Large 430mm diameter
- Highlights warnings or special requirements

A range of eye-catching, highly visible, floor signs which will highlight warnings or special requirements. Printed on the underside of a tough clear plastic film and laminated with an aggressive adhesive, means that these signs can be used in a busy industrial environment. Available from stock with 38 standard designs, however, bespoke signs can also be produced when required.

Although originally designed for use on the floor they can also be used on walls or other surfaces provided that they are dry, clean, flat and sealed.

Floor Identification Markers

See page 2 for details

Letters A-Z

Numbers 0-10

- High visibility floor markers
- Designed to identify aisle, bay or other warehouse floor areas
- Available in A-Z & 0-10
- Each marker is 190mm diameter

These high visibility floor markers have been designed to cope with the daily stress and strain of a modern warehouse. All our markers incorporate a permanent aggressive adhesive backing and can be used not just on the floor but any dry, clean flat sealed surface. The 190mm diameter markers are printed with a bold black digit on a yellow background in letters A-Z or numbers 0-10.

Ref	Size (diameter)	Background Colour
FMC/- (State digit)	190mm	Yellow

Floor Location Labels

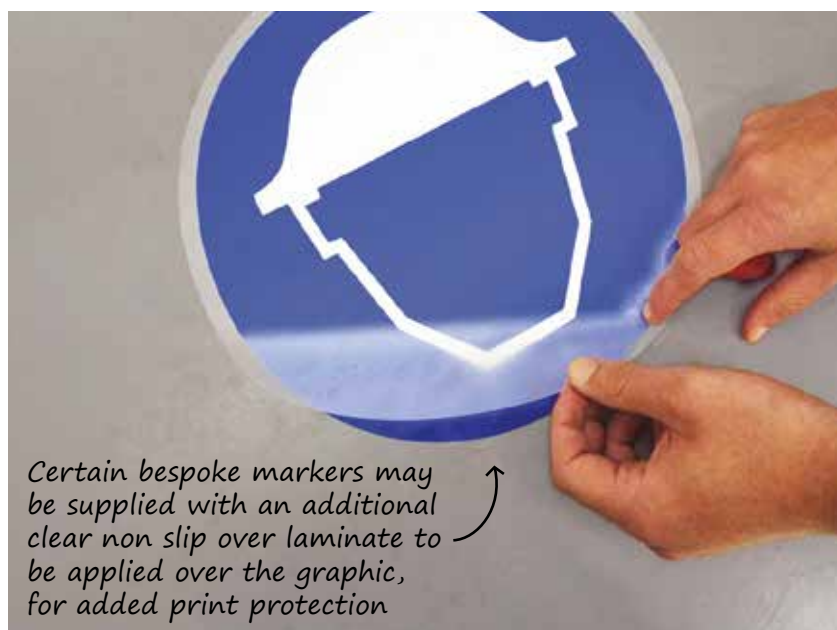

- High visibility floor location labels
- Designed totally to your specification
- Tough & durable

Our high visibility floor location labels are suitable to identify areas of the warehouse or factory floor. The labels can be totally customised for identification of pallet positions, item numbers and any specific area such as packing and quarantine areas, etc. Printed to your design, the labels have an aggressive self-adhesive backing to withstand the everyday traffic in the workplace.

To obtain a price simply provide the following information:

- Size
- Text
- Barcodes or graphics details
- Colour
- Quantity

Stencils

- Quality re-usable stencils
- Stencils available in 4 sizes
- Saves valuable time
- Large 750ml cans
- Paint cans suitable for manual or applicators

Our stencils are manufactured from a rigid PVC film, each one is laser-cut for accuracy, with a transparent anti-glare finish which is naturally scratch resistant. If properly cared for, our stencils can be used again and again making them not only very economical but also quick and easy to use, saving valuable time compared to other methods of marking.

Anti-slip Tapes

Available
in 4
widths &
6 colours

Anti-slip flooring products are impregnated with diamond hard aluminium oxide making them tough, durable & long lasting

- Quick & easy to apply anti-slip tape
- Tough, durable & long lasting
- Available in various widths & colours
- Supplied in 18.3m rolls

Our anti-slip tapes are manufactured through a unique process ensuring it's one of the most effective anti-slip surfacing available. Our tapes have a thick carrier impregnated with diamond hard aluminium oxide making it hardy, tough, durable and long lasting. The backing has a heavy coating of permanent pressure sensitive adhesive which is water resistant and ensures once it's down, it stays down.

Special Tapes & Plates

As well as our standard anti-slip tapes, we produce bolt down plates, conformable tapes, glow in the dark tapes, reflective tapes plus many more.

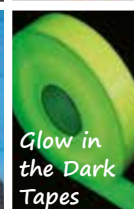

Bolt Down Plates - Great for wet environments and wooden steps or decking. The weatherproof plates are available in different plate sizes.

Conformable - Ideal to cover chequer plate/diamond tread/durbar plate surfaces.

Glow in the Dark Tapes - Ensure walkways, stairways, entrances and exits are illuminated well enough for you to find an exit in the event of a power cut.

Reflective Tapes - Simple, self-adhesive, high visibility safety tape, suitable for marking hazardous or dangerous areas, such as, vital routes, staircases, ledges and low hanging objects like racking beams.

● Please contact the sales office for further details.

Self-adhesive

Anti-slip Stair Treads

- Anti-slip stair treads - plain or printed
- Supplied in packs of 5

Our anti-slip treads are manufactured using the same high standard as our anti-slip tape and are ideally suited for use on stair treads or anywhere where the regular shape is required. Available in plain black or black and yellow with "Caution" and "Watch your step" messages printed onto the material. We can offer your own message to be printed, please enquire for further details.

Anti-slip Feet

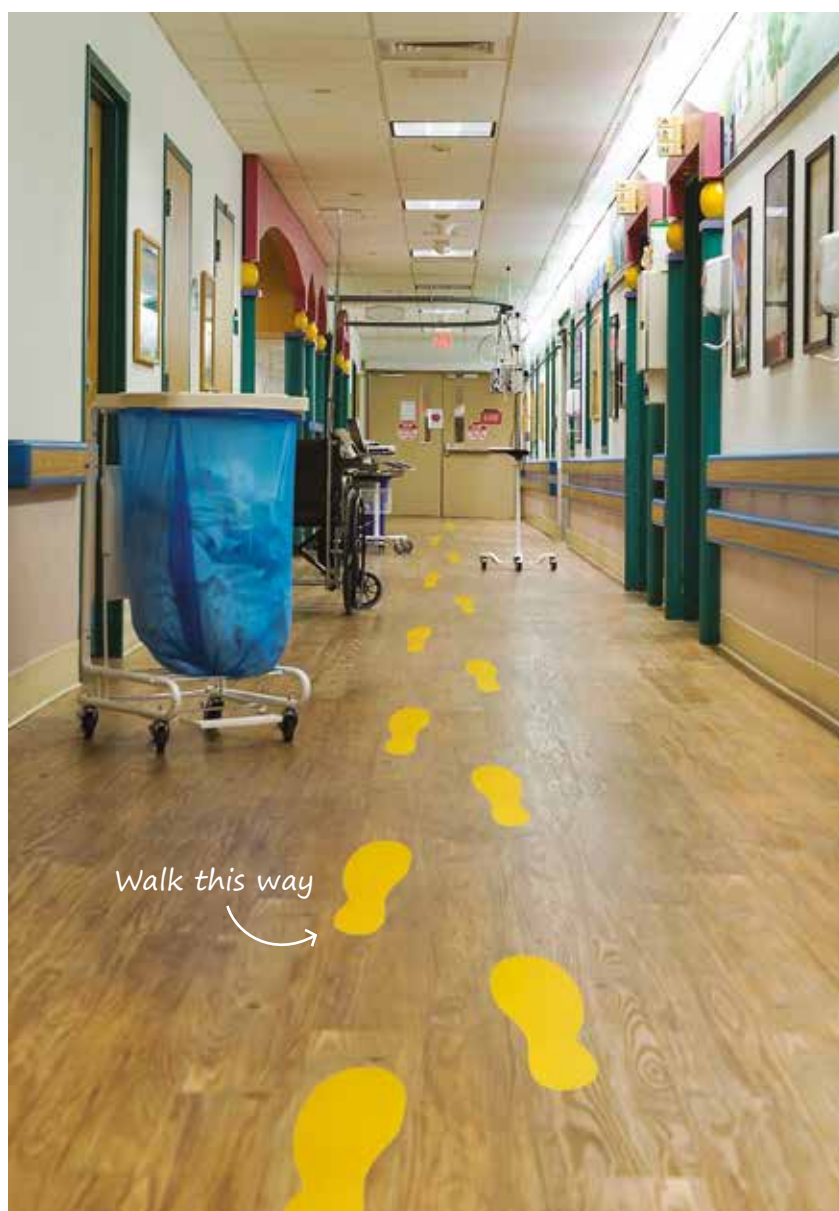

- Anti-slip footprints for marking out safe pedestrian routes
- Industrial strength adhesive & anti-slip properties
- Supplied in packs of 10, 5 right & 5 left
- 3 different designs to choose from

Our anti-slip feet are ideal for creating marked pedestrian routes that also have the advantage of making a terrific anti-slip surface. Available in a choice of designs; standard footprint, large footprint with toes and small footprint with toes, they are ideal for environments that include children.

Industrial Strength Clear Pockets - Magnetic

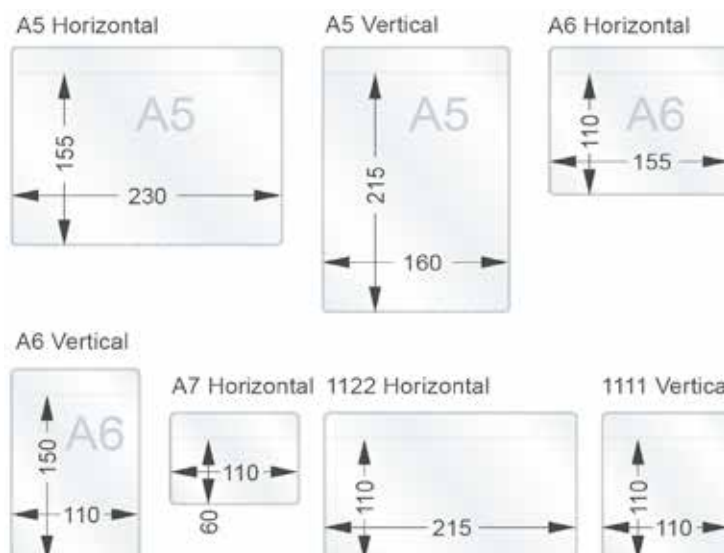

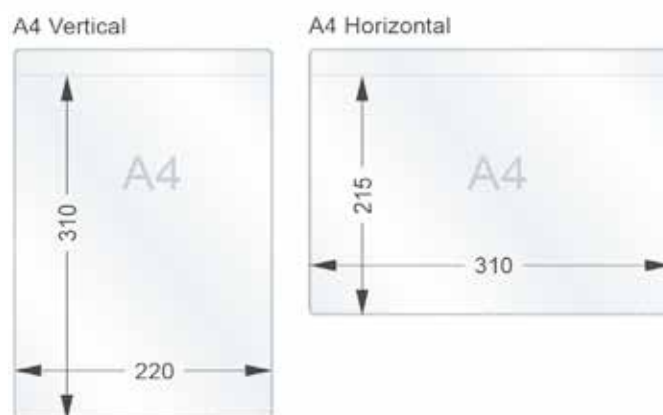

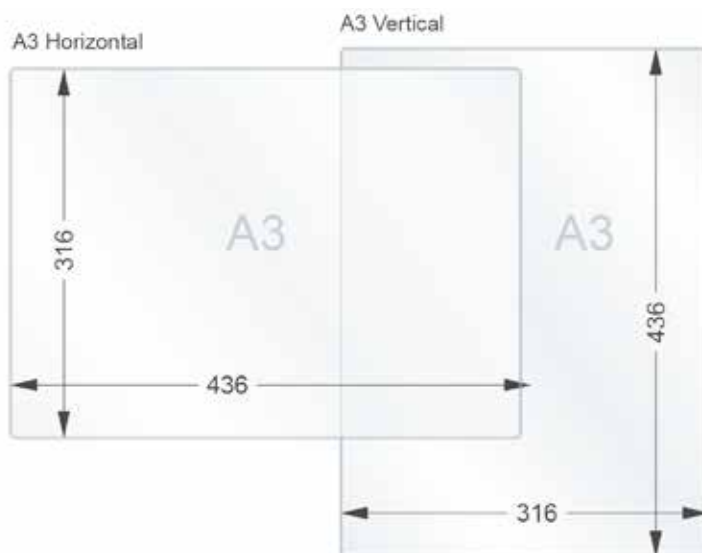

- Industrial quality pockets with strong welded edges
- Keeps documentation clean
- Suits A3, A4, A5, A6 & A7 inserts
- Vertical & horizontal formats

A range of document pockets to suit most environments with magnetic or self-adhesive fixings. Also available as clip on and tie on to suit wire bins and cages.

The adhesive pockets are supplied with an aggressive adhesive tape along the top and bottom edge (A7 pocket has tape along the top edge only) for a permanent fixing.

The magnetic pockets are supplied with a magnetic strip along the top, so that they can be simply moved and relocated when necessary.

Tie-on pockets can secure around a maximum diameter of 60mm, whilst clip-on pockets are ideal for use on wire bins and cages. A7 size can also be used as visitor badge pockets.

- Horizontal = Landscape
- Vertical = Portrait
- Pockets shown are not to scale
- Dimensions in mm

Magnetic Wrap-around Pockets

Magnetic 

- Designed for industrial roll cages or mesh containers
- Manufactured from tough plastic
- Flap to protect contents
- Longer headers suit trolley handles

Three hard wearing information pockets in sizes A4, A5 and A6 which have a unique looped magnetic header that is designed to wrap around the mesh of a cage.

A special flap shields the opening of each pocket providing your document with protection from the elements.

The clear PVC face enables the message to be clearly seen without the need to remove the document.

Hanging Pockets

- Two information pockets manufactured in tough plastic
- Unique hooked header design
- Available from stock

Our premium hanging pockets feature a unique hooked header, designed to hang and grip onto the edge of an industrial wooden case.

This pocket offers a dual function, to either store documents linked to the case or to provide identification where a conventional label will not adhere to a wooden or textured surface.

The hanging pocket is also suitable for trolleys, stillages, pallet converters and many more items that have a hanging rail of up to 25mm maximum thickness.

Ring Binders for Walls

Magnetic

Self-adhesive

- 2 or 4 hole ring binders
- Magnetic or self-adhesive fixings
- Creates quick & flexible information centres

Keeping multiple pages of information readily available in a prominent visual position can sometimes be difficult, these 2 or 4 ring binder mechanisms are the answer. These are ideal for storing Health and Safety, Fire action, or production planning information.

Magnetic or self-adhesive backed, the binder offers a versatile fixing system for either magnetic receptive boards, steel surfaces or sealed surfaces. Use self-adhesive where heavier folders are involved.

Tough Weather Resistant Pockets

Magnetic

Self-adhesive

Tie-on

- Protect your documents outdoors with these industrial quality clear pockets
- Secure press seal fastening
- Multiple fixing options - magnetic, self-adhesive or tie-on

Industrial strength pockets designed for external use with a press seal weather resistant fastening. The pockets have sufficient room for numerous A4 size documents, plus pens etc. that may be required on site.

Available in horizontal or vertical formats, these pockets have either a strong magnetic fixing allowing the pocket to be located to a ferrous steel surface, yet easily lifted off. A self-adhesive fixing for permanent location and a tie-on fixing that allows for the pocket to be secured around a picking trolley handle or the mesh of a roll cage. This fixing allows for a maximum diameter of 60mm. These pockets can also be used with Hold-All 2 or 4 ring binders.

frames4docs® Self-adhesive

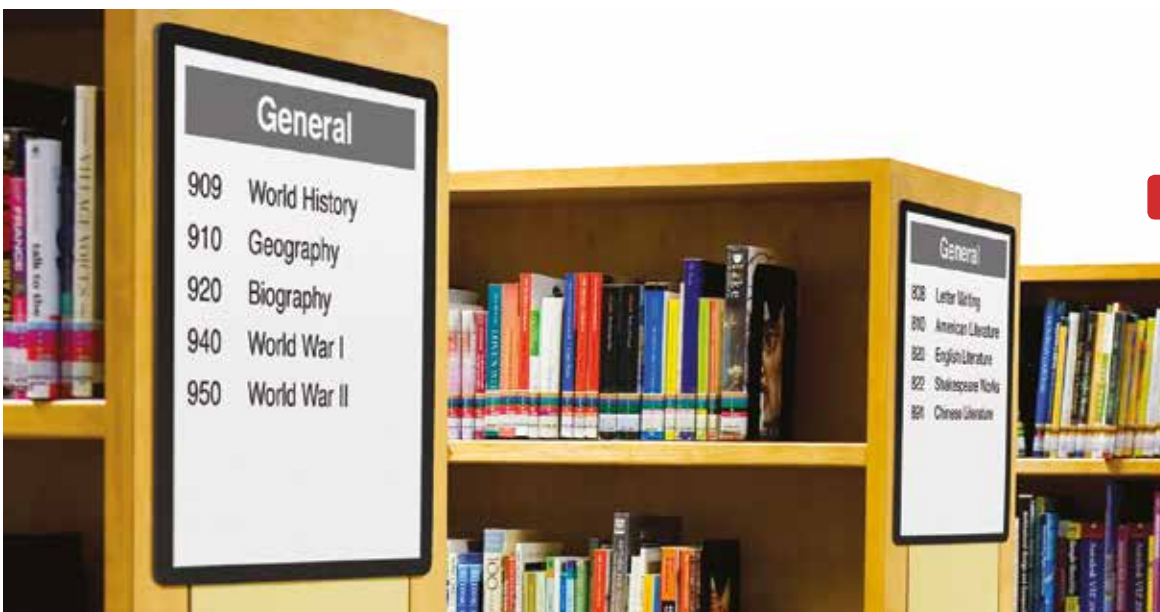

Self-adhesive

- Enables documents to be framed & displayed
- Available in sizes to fit A2, A3, A4 & A5
- Ideal for Lean & 5S environments
- Frames can be used horizontally or vertically

Frames4docs are a range of colour coded frames designed for easy and prominent document display. Their self-adhesive fixings suit non-porous surfaces in the office, warehouse and throughout the workplace.

The self-adhesive Frames4docs have a permanent, aggressive adhesive that has been selected to adhere to most sealed surfaces. This design allows for documents to be easily changed when required.

Available in 4
sizes & 5 Lean
Manufacturing
Colours

See page 2 for details

- **Frame & display those important documents**
- **Available in sizes to fit A2, A3, A4 & A5**
- **Ideal for Lean & 5S environments**
- **Frames can be used horizontally or vertically**

With rounded corners & vibrant colours not only are the frames efficient at getting the message across they also look great...

The colour coded magnetic frames can be used to create information centres and help portray important information in 5S and Lean environments. The magnetic frames are suitable for use on magnetic notice boards, steel cupboards, solid racking and shelving end frames and most metallic surfaces.

The magnetic Frames4docs have a very strong pull force and can be applied to any flat steel surface. The design allows for easy insertion and removal of documents without the necessity of moving the frame. However, if required, simply lift and relocate the frame at will.

The magnetic frame also enables a document to be displayed cleanly without the use of nails and pins that could possibly damage the fixing surface.

A flexible board system that gets your notices ... noticed

- Edgeless boards that can be sited together
- All fixings are hidden
- For magnetic or self-adhesive document display
- Colour edged document frames for targeted information
- Title frame supplied with each pack of 6 frames
- Boards, frames and fixings are supplied in one easy kit

This system offers either an edgeless board, or a number of boards that can be sited together to create larger panels. Two board choices are available, magnetic receptive or non magnetic.

Each board is 1220 x 1220mm supplied as two panels 1220 x 610mm. Boards4frames are designed as a display board so they are not recommended for writing on.

Each pack contains either six frames suitable for A3 size documents and a black title frame, or two packs of six frames suitable for A4 size documents and two black title frames.

Magnetic

Magnetic frames are used with the magnetic receptive board and can be lifted and moved as required or when updates are needed.

Self-adhesive

Self-adhesive frames are used with the non-magnetic board and once fixed are positioned permanently. Their unique design allows a document to be quickly and easily updated when required.

A3 Kits

Supplied with 1 pack of 6 identically coloured frames and 1 black title frame. Please choose 1 colour when ordering.

Choice of 5 colours

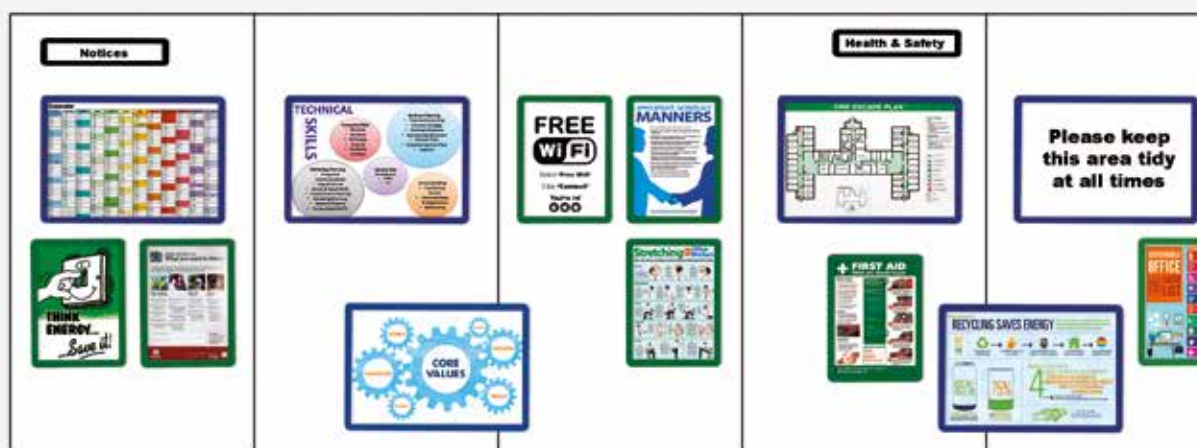

A4 Kits

Contains 2 packs of 6 identically coloured frames and 2 black title frames. Please choose up to 2 colours when ordering.

See page 2 for details

racksack®

- Easy collection of waste
- Easy to fix, easy to remove
- Helps waste segregation
- Hard-wearing & re-usable
- Available in blue or green
- Other designs & special prints including logos are available on request

Waste management problems are easily solved with the racksack. Ideal for most warehouse racking systems, the racksack quickly fixes to the end of your racking frame.

The racksack is designed for most racking and shelving systems between 900mm and 1100mm. Once full, racksacks can be removed and emptied with ease.

The racksack has been thoughtfully developed so that it will not intrude into valuable warehouse space. When hung it has a large open mouth to easily receive waste, yet its tapered design enables it to hardly encroach into the floor area.

Originally designed for the warehouse the racksack's flexible method of 'S' locator fixing means it can be hung over or hooked onto any substrate. That's why the racksack has quickly established itself a place in other industrial areas such as factories, offices or anywhere where waste has become a problem.

Made from tough waterproof polyester the racksack can adequately withstand the rigours of an industrial environment.

Three strong handles are woven into the edge of the sack, one on each side for carrying and one on the base, so that the sack can be easily tilted from the base and emptied.

There are 14 design options available, 13 printed waste segregation options plus a completely blank sack.

Handles at the sides & base are double stitched to tough woven polyester

Blue

Ref	Size (mm h x w)	Pack
RSB1	1000 x 920	1
RSB5	1000 x 920	5

Krolleysack®

- Organise waste packaging materials as you go
- Easy collection & segregation of waste
- Easy to fix, easy to remove & empty
- Hard-wearing & re-usable
- Single or double pocket versions
- Can be overprinted for volume orders

Keep your picking areas clean and tidy as you go by fitting these recycling sacks. Not only do you keep unwanted waste materials off the floor but you also help segregate waste. Made from tough waterproof polyester, these single or double pocket trolley sacks can adequately withstand the rigours of an industrial environment. Ideal for hooking onto handles of picking trolleys up to 580mm wide or they can be secured via eyelets in other locations. When full simply take to your main waste station and empty the pre-segregated waste.

Optional fixing hooks not supplied. See page 77 ►

Capacity: Inner pocket - 50 Litres, Outer pocket - 55 Litres.
Combined pockets when used together: 73 Litres.

rollcagesack®

rollcagesack®

- Organise waste packaging materials as you go
- Easy collection & segregation of waste
- Ideal for 800mm wide roll containers
- Hard-wearing & re-usable
- Can be overprinted for volume orders

Keep your workplace neat and tidy by fitting the cagesack, ideal for use on 800mm wide roll containers. Made from tough waterproof polyester, large capacity twin pocket sacks can adequately withstand the rigours of an industrial environment.

Fits by hooking over the sides or can also be secured via eyelets in the top corners. Straps help secure the middle of the sack.

Warehouse Recycling

Pick Bin Flexi Identification Pockets

- Helps eliminate picking errors
- Highlight stock shortages

A simple system of identification for picking bins, that will save time and money and help eliminate those costly picking errors.

Each pocket size 120 x 100mm wide (internal size 110 x 95mm wide) has a unique self-adhesive hinge along the top edge. This hinge is adhered to the underside of the bin, directly above that to be identified.

The pocket label can have a barcode incorporated, and even a picture of the component to be picked. Two labels can be used, so that when the bin is empty, the labels are reversed, highlighting that the component is out of stock.

- Labels not included, please contact the sales office for further details.
- Printed inserts available.

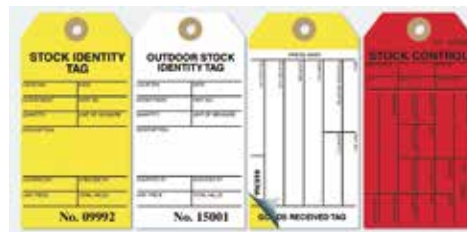

Ref	Size (mm h x w)	Pack
FP1211/100	120 x 110	100

Industrial Tags

- Quality tie on industrial tags
- Indoor & outdoor materials available
- 2 part – perforated tags available

Our quality industrial tags are suitable for indoor and one for outdoor use, in a wide range of applications throughout the warehouse and factory. Available immediately from stock in quantities of 100 they ensure accurate stock and inventory control.

- Bespoke tags in various sizes can be supplied printed on one or two sides.
- Please contact the sales office for further details.

Plastic Discs

- Plastic tags can be engraved or digitally printed
- Plastic tags can incorporate variable data, sequential numbers and barcodes & logos
- Wide range of colour choices available

Asset tags and nameplates are used for both product identification and company branding throughout industry. Beaverswood offer a wide range of materials and finishing options.

An economic solution for light duty requirements both internal and external. Applications can include locker identification where the numerical adhesive tag is placed on each locker and relevant drilled tag on the key fob.

Metal Nameplates

Where a more robust solution is required, metal nameplates offer a superior quality product and are suitable for use both internally and externally. Ideal to identify stillages and bins, the nameplates can incorporate stamped data, variable data, logos and barcodes. A wide range of metals are available including aluminium, stainless steel and brass.

Anodised Aluminium Plates

This range offers a hard wearing durable finish where the print is sealed within the grain of the aluminium. Various thicknesses of material are available. They can be used internally and externally and are particularly suitable where solvent resistance is vital.

Self-adhesive

or Drilled

Short print runs are available. Simply contact the sales office with the following details:

- Material required
- Size required
- Print colours required
- Typical text required
