LOUVRE PANELS

Wall mounted louvre panels provide a valuable and versatile storage unit. Fixing holes are positioned so they can be interlinked for a continuous run. They are often used for bench ends, sides of desks and even backs of doors.

- Made from pressed steel for durability in a range of different sizes
- Epoxy powder coated paint gives a smart appearance
- Suitable for walls, desks, workbenches and doors

WHAT YOU NEED TO KNOW

- Each LINBIN size will require a certain amount of space on a louvre panel. This is called the LINBIN Unit (LBU).
- The number of LINBINS each panel can accommodate is called the LINBIN Unit Capacity (LBUC).
- Adding together the LINBIN Unit values should match the LINBIN Unit Capacity to utilise the full space available.

EXAMPLE

On a louvre panel with a LBUC of 16 (VLP1 - 450H x 500W mm) you can fit:

8 Size 2 or Size 3 LINBINS as they have an LBU of 1 = 8 LBU

2 Size 6 LINBINS as they have an LBU of 4 = 8 LBU

8 x LBU 1 = 8

2 x LBU 4 = 8

Total LBU 16

OTHER RANGES AVAILABLE

LINTRAYS

Range of trays designed for shelving cabinets and storage systems. This product is popular in the electronic and automotive industries. LINTRAYS come with features that ensures greater productivity with quick stock access and improved work safety.

- End stops fit to the back of the trays and keep the tray at the optimum angle for picking
- Index cards at the back of the trays, as well as the front, to make stock picking quick and accurate
- Trays can be divided to provide individual compartments
- Blue plastic in 6 sizes
